

VANGUARD FOUNDRY

manufacturers of high integrity ductile castings

VANGUARD FOUNDRY

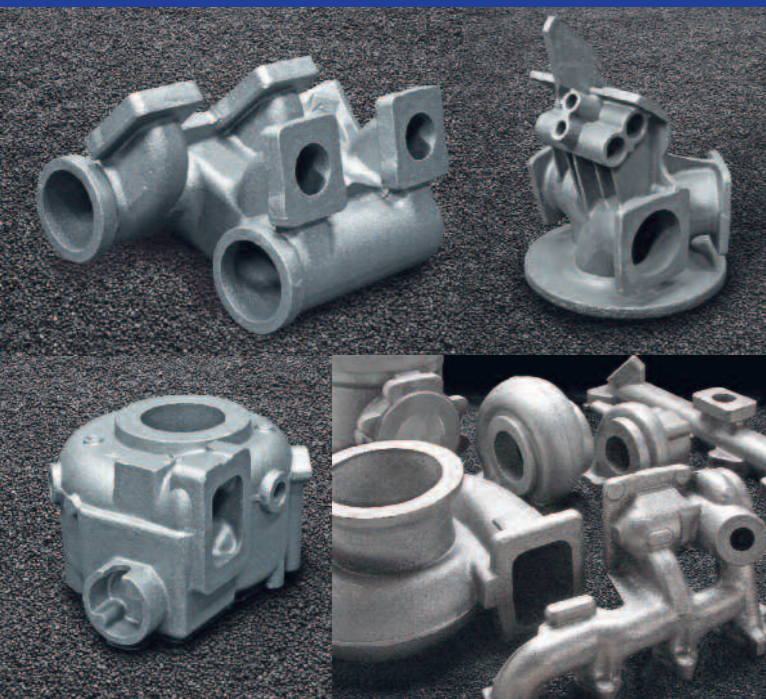

Continually seeking out markets for high integrity product Vanguard has become a principal producer of prototypes and low to medium volume casting parts ranging from a fraction of a Kilogram up to 200 Kilograms. These parts are supplied as cast, part machined or fully finished depending on customers requirements.

Due to substantial investment in modern technology, process innovation and a loyal expert workforce we have enjoyed dynamic growth without compromising on our value proposition of offering high standards of craftsmanship combined with rapid product turnaround.

- Versatility of production utilising both green sand and chemically bonded techniques.
- Strong Ethic for all stakeholders – customers, employees, locality, suppliers and shareholders.
- A leading supplier to the automotive, marine, aerospace, power generation, pump and general engineering industries.
- Rapid prototyping utilising series production pattern making technology.
- Extensive size range of castings supplied as cast through to fully finished.

Committed to Quality
Committed to Partnership
